TARIFF FORMAT

- A. Leaf Numbering** - Leaf numbers appear in the upper right corner of the Leaf and are numbered sequentially. However, new Leafs are occasionally added to the tariff. When a new Leaf is added between Leafs already in effect, a number is added. For example, a Leaf added between Leaf 14 and 15 would be 14.1
- B. Leaf Revision Numbers** - Revision numbers also appear in the upper right corner of each Leaf. These numbers are used to determine the most current Leaf version on file with the NYDPS. For example, the 4th Revised Leaf 14 cancels the 3rd Revised Leaf 14. Because of various suspension periods, deferrals, etc. the NYDPS follows in its tariff approval process, the most current Leaf number on file with the NYDPS is not always the tariff Leaf in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- D.** Billing of the Customer by the Company will begin on the Service Commencement Date, which is the first day following the date on which the Company notifies the Customer that the service or facility is available for use, except that the Service Commencement Date may be postponed by mutual agreement of the parties, or if the service or facility does not conform to standards set forth in this tariff or the Service Order. Billing accrues through and includes the day that the service, circuit, arrangement or component is discontinued.

The rate of interest shall be the greater of the Customer deposit interest rate or the Company's applicable late payment rate.

Interest shall be paid from the date when overpayment was made, adjusted for any changes in the deposit rate or late payment rate, and compounded monthly, until the date when the overpayment is refunded. The date when overpayment is considered to have been made will be the date on which the Customer overpayment was originally recorded to the Customer account by the Company.

2.5.4 Disputed Bills

- A. In the event that a billing dispute occurs concerning any charges billed to the Customer by the Company, the Company may require the Customer to pay the undisputed portion of the bill to avoid discontinuance of service for non-payment. The Customer must submit a documented claim for the disputed amount. The Customer will submit all documentation as may reasonably be required to support the claim. Deposits will be returned to a business Customer upon cancellation of service or after one year, whichever event occurs first, unless the Customer is delinquent in payment, in which case the Company will continue to retain the deposit until the delinquency is satisfied. If a service is involuntarily discontinued, the deposit is applied against the final bill, and any balance is returned to the Customer.

The foregoing provisions notwithstanding, no ANI recipient or its designated billing agent may utilize ANI information if prohibited elsewhere by law.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.19 Automatic Number Identification (Cont'd.)

2.19.1 Regulations (Cont'd.)

- E.** Violation of any of the foregoing terms and conditions by any ANI recipient other than a Telephone Corporation shall result, after a determination through the Department's complaint process, in suspension of the transmission of ANI by the Telephone Corporation until such time as the Department receives written confirmation from the ANI recipient that the violations have ceased or have been corrected. If the Department determines that there have been three or more separate violations in a 24-month period, delivery of ANI to the offending party shall be terminated under terms and conditions determined by the Department.

2.20 School and Libraries Discount Program

2.20.1 General

The Schools and Libraries Discount Program permits eligible schools (public and private, grades Kindergarten through 12) and libraries to purchase the Company services offered in this tariff at a discounted rate, in accordance with the Rules adopted by the Federal Communications Commission (FCC) in its Universal Service Order 97-157, issued May 8, 1997 and the New York State Public Service Commission in its Opinion and Order 97-11 Adopting Discounts for Services for Schools and Libraries, issued June 25, 1997. The Rules are codified at 47 Code of Federal Regulation (C.F.R.) 54.500 et. seq.

As indicated in the Rules, the discounts will be between 20 and 90 percent of the pre-discount price, which is the price of services to schools and libraries prior to application of a discount. The level of discount will be based on an eligible school or library's level of economic disadvantage and by its location in either an urban or rural area. A school's level of economic disadvantage will be determined by the percentage of its students eligible for participation in the national school lunch program, and a library's level of economic disadvantage will be calculated on the basis of school lunch eligibility in the public school district in which the library is located. A non-public school may use either eligibility for the national school lunch program or other federally approved alternative measures to determine its level of economic disadvantage. To be eligible for the discount, schools and libraries will be required to comply with the terms and conditions set forth in the Rules. Discounts are available only to the extent that they are funded by the federal universal service fund. Schools and libraries may aggregate demand with other eligible entities to create a consortium.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.22 Emergency / Crisis / Disaster Restoration and Provisioning - Telecommunications Service Priority

2.22.1 General

- A. The Telecommunications Service Priority (TSP) Program is a federal program used to identify and prioritize telecommunications services that support national security or emergency preparedness (NS/EP) missions.

NS/EP services are defined as those telecommunications services which are used to maintain a state of readiness or respond to and manage any event or crisis which causes or could cause injury or harm to the population, damage or loss to property, or degrades or threatens the NS/EP posture of the United States.

TSP restoration and/or provisioning shall be provided in accordance with Part 64, Appendix A of the Federal Communications Commission's Rules and Regulations (47 C.F.R.), and the "Service Vendor Handbook For The Telecommunications Service Priority (TSP) Program" and the "Service User Manual for the Telecommunications Service Priority (TSP) System" (NCS Manual 3-1-1) (Service User Manual) issued and updated as necessary by the Office of Priority Telecommunications (OPT) of the National Communications System. Any changes to or reissuance of these regulations or manuals supersede tariff language contained herein.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.22 Emergency / Crisis / Disaster Restoration and Provisioning - Telecommunications Service Priority (Cont'd.)

2.22.1 General (Cont'd.)

- B.** The TSP program has two components, restoration and provisioning.
1. A restoration priority is applied to new or existing telecommunications services to ensure restoration before any other services during a service outage. TSP restoration priorities must be requested and assigned before a service outage occurs.
 2. A provisioning priority is obtained to facilitate priority installation of new telecommunications services during a service outage. Provisioning on a priority basis becomes necessary when an end-user has an urgent requirement for a new NS/EP service that must be installed immediately or by a specific due date that can be met only by a shorter than standard or expedited Company provisioning time frame. As a matter of general practice, existing TSP services will be restored before provisioning new TSP services.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.22 Emergency / Crisis / Disaster Restoration and Provisioning - Telecommunications Service Priority (Cont'd.)

2.22.2 TSP Request Process

A. Restoration

To request a TSP restoration priority assignment, a prospective TSP user must:

1. Determine that the user's telecommunications service supports an NS/EP function under one of the following four TSP categories.

National Security Leadership
National Security Posture and U.S. Population Attack Warning
Public Health, Safety, and Maintenance of Law and Order
Public Welfare and Maintenance of National Economic Posture

2. Identify the priority level to be requested for the telecommunications service. The priority level is determined by the end-user's TSP category and service profile. The service profile defines the user's level of support to the portion of the telecommunications service that the user owns and operates, such as customer premises equipment or wiring. The five levels of priority and seven element groups that define the service profile are contained in the Service User Manual.
3. Complete the TSP Request for Service Users form (SF 315) available on the National Communications System (NCS) website (<http://tsp.ncs.gov/>).
4. For non-federal users, have their TSP requests approved by a federal agency sponsor. Non-federal users should contact the OPT, at the NCS website (<http://tsp.ncs.gov/>), for information on identifying a sponsor for TSP requests.
5. Submit the SF 315 to the OPT.
6. Upon receipt of the TSP Authorization Code from the OPT, notify the Company, and include the TSP Authorization Code in any service order to the Company requesting restoration of NS/EP services.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.22 Emergency / Crisis / Disaster Restoration and Provisioning - Telecommunications Service Priority (Cont'd.)

2.22.2 TSP Request Process (Cont'd.)

B. Provisioning

To request a TSP provisioning priority assignment, a prospective TSP user must follow the same steps listed in 2.21.2.A above for restoration priority assignment except for the following differences. The user should:

Certify that its telecommunications service is an Emergency service. Emergency services are those that support one of the NS/EP functions listed in 2.21.2.A.1 above and are so critical that they must be provisioned at the earliest possible time, without regard to cost to the user.

Verify that the Company cannot meet the service due date without a TSP assignment.

Obtain approval from the end-user's invocation official to request a provisioning priority. Invocation officials are designated individuals with the authority to request TSP provisioning for a telecommunications service and include the head or director of a federal agency, commander of a unified/specified military command, chief of a military service, commander of a major military command, or state governor.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.22 Emergency / Crisis / Disaster Restoration and Provisioning - Telecommunications Service Priority (Cont'd.)

2.22.3 Responsibilities of the End-User

End-users or entities acting on their behalf must perform the following:

- A. Identify telecommunications services requiring priority.
- B. Request, justify, and revalidate all priority level assignments. Revalidation must be completed every 2 years and must be done before expiration of the end-user's TSP Authorization Code(s).
- C. Accept TSP services by the service due dates.
- D. Have Customer Premises Equipment (CPE) and Customer Premises Wiring (CPW) available by the requested service due date and ensure (through contractual means or otherwise) priority treatment for CPE and CPW necessary for end-to-end service continuity.
- E. Pay the Company any authorized costs associated with priority services.
- F. Report to the Company any failed or unusable services with priority levels.
- G. Designate a 24-hour point of contact for each TSP request and apprise the OPT.
- H. Cooperate with the OPT during reconciliation (comparison of NS/EP service information and resolution of any identified discrepancies) and revalidation.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.22 Emergency / Crisis / Disaster Restoration and Provisioning - Telecommunications Service Priority (Cont'd.)

2.22.4 Responsibilities of the Company

The Company will perform the following:

- A. Provide TSP service only after receipt of a TSP authorization code.
- B. Revoke TSP services at the direction of the end-user or OPT.
- C. Ensure that TSP Program priorities supersede any other telecommunications priority that may be provided (other than control services and order wires).
- D. Designate a 24-hour point of contact to receive reports of TSP service outages from TSP service users.
- E. Designate a 24-hour point of contact to coordinate TSP processes with the OPT.
- F. Confirm completion of TSP service order activity to the OPT.
- G. Participate in reconciliation of TSP information at the request of the OPT.
- H. Ensure that all subcontractors complete reconciliation of TSP information with the service vendor.
- I. Ensure that other carriers supplying underlying facilities are provided information necessary to implement priority treatment of facilities that support NS/EP services.
- J. Assist in ensuring that priority level assignments of NS/EP services are accurately identified "end-to-end" by providing to subcontractors and interconnecting carriers the restoration priority level assigned to a service.
- K. Disclose content of the NS/EP TSP database only as may be required by law.
- L. Comply with regulations and procedures supplemental to and consistent with guidelines issued by the OPT.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.22 Emergency / Crisis / Disaster Restoration and Provisioning - Telecommunications Service Priority (Cont'd.)

2.22.5 Preemption

When spare facilities are not available, it may be necessary for the Company to preempt the facilities required to provision or restore a TSP service. When preemption is necessary, non-TSP services may be preempted based on the Company's best judgment. If no suitable spare or non-TSP services are available, the Company may preempt an existing TSP service to restore a TSP service with a higher restoration priority assignment. When preemption is necessary, prior consent of the service user whose service will be preempted is not required; however, the Company will make every reasonable effort to notify the preempted customer of the action to be taken.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.23 Caller ID Unblocking

2.23.1 311 / 911 Caller ID Blocking *

The City of New York 311 Call Center provides consolidated access to non-emergency municipal services and information 24 hours per day, 365 days per year. Callers have the ability to access City departments and services by using the 311 abbreviated dialing code instead of dialing a particular seven-digit number. In certain circumstances, calls to the 311 Call Center involve emergencies of various levels. In these instances, the Call Center will transfer the call to the 911 Emergency Call Center. If the caller has activated Caller ID Blocking, either on a per-call or per-line basis, the 911 Emergency Call Center will be unable to determine the caller's location. Thus, by Order dated April 18, 2003 (Case 03-C00171), the New York Public Service Commission directed that, for reasons of public safety, Caller ID Blocking shall be unblocked on all calls to the 311 Call Center. This ruling applies only to calls made to the 311 Call Center and not to any other municipal office.

2.23.2 211 / 911 Caller ID Unblocking

The City of New York 211 Call Center provides a means of accessing community information and referral services within the Five Boroughs. Callers dialing 211 from telephones located within New York City will reach the Call Center where the calls will be routed to call takers trained to provide basic health and human services information. In certain circumstances, calls to the 211 Call Center may involve emergencies of various levels. In these instances, the Call Center will transfer the call to the 911 Emergency Call Center. If the caller has activated Caller ID Blocking, either on a per-call or per-line basis, the 911 Emergency Call Center operator will be unable to determine the caller's location. By Order dated May 28, 2008 (Case 07-C-1091), the New York Public Service Commission directed that, for reasons of public safety, Caller ID Blocking shall be unblocked on all calls to the 211 Call Center. This ruling applies only to calls to the 211 Call Center and not to any other municipal office.

* Caller ID Blocking is deactivated for calls to 211 or 311 or 911 in the New York exchange only.

The 64-Kbps B-channels carry user information such as voice calls, circuit-switched data or video while the D-channel carries the call-control signaling information. The B-channels may be provisioned on the same facility as the D-channel or on other PRI T1 facilities. Each B-channel is dedicated to inward, outward or 2-way traffic. The customer may use CPE to bond together 64 Kbps B-channels for the transmission of circuit-switched data or video.
- C. Directory Numbers: Primary Directory Number - A single telephone directory number is provided with each PRI service ordered.
- D. Directory Listings: One primary directory listing is provided per PRI service per customer.
- E. Emergency 911 services will be provided for all voice calls on PRI service.

5.1.2 Protection of the Network
